EDUCATION

Master of Technology — 2022 – 2024
Biju Patnaik University of Technology — *Odisha, India*

Bachelor of Technology — 2019 – 2022
Utkal University — *Odisha, India*

INTERNSHIP & EXPERIENCE

Software Engineer Intern — May 2025 – Present
Ttinfotechs — *Bhubaneswar, India*

- **CuurePay – Full Stack Developer:** Developed and deployed a payment/finance platform enabling seamless digital transactions. Designed and implemented frontend (React, JavaScript) and backend (Node.js, Express, MongoDB/MySQL) features. Deployed on AWS with CI/CD pipelines for scalability and high availability. Built workflow automations (n8n) and integrated AI-powered modules to enhance user experience and business processes.
- **MkFood – Full Stack Developer:** Designed and developed a food ordering and delivery platform. Built scalable backend with Node.js, Express, and MongoDB. Integrated secure payment gateway and order tracking features. Implemented responsive frontend using React and Tailwind CSS. Deployed on AWS with automated CI/CD pipelines for high availability.

PROJECTS

Personal Portfolio Website — Link

- Built a responsive personal portfolio showcasing projects, skills, and achievements with a clean UI/UX using React and Tailwind CSS.
- Integrated smooth navigation, animations, and dynamic sections for better user experience.
- Designed for mobile-first with optimized performance for recruiters and hiring managers.

Currency Converter Application — Link

- Developed a real-time currency converter using React and API integration to fetch live exchange rates.
- Implemented responsive design for mobile and desktop users with an intuitive input system for quick conversions.
- Enhanced UI with error handling and optimized rendering for fast performance.

TECHNICAL SKILLS

- **Languages:** Java, C, JavaScript, TypeScript
- **Databases:** MySQL, MongoDB, DynamoDB
- **Frameworks/Libraries:** React.js, Node.js, Express.js, LangChain
- **Styling:** CSS, Bootstrap, Tailwind CSS, Ant Design
- **Tools & Platforms:** Git, GitHub, AWS (EC2, Lambda, CI/CD), Docker, n8n
- **Other:** REST APIs, Workflow Automation, Cloud Deployment, AI Integration

CERTIFICATIONS

- Hackathon on Industrial Internet of Things (IIOT), 27/02/2023
- Udemy: Web Development (Online Course)
- PW Skills: Completed Core Java (Online Course)
- QSpiders: Completed Full-Stack Web Development Course

ACHIEVEMENTS

- Participated in Hackathon on Industrial Internet of Things (IIoT) on February 27, 2023.
- Attended a technical workshop on Cyber Security and Ethical Hacking organized by USBM.
- Attended a seminar on Artificial Intelligence and Machine Learning and Its Impact on Society organized by Incobist at USBM.
